### Where I've Worked

2008 - Present

#### J76 USSTRATCOM

Lead Web Designer and Developer for US Stratcom Mission Training. Responsible for the design and development of all US Stratcom web based mission area training items.

2009 - Present General Dynamics

2008 - 2009 Booz Allen Hamilton

2007 - 2008

#### Computer Sciences Corporation

As a software engineer for CSC I was responsible for the full life cycle of Stratcom web based applications. This included initial design and architecture to development, deployment, and maintenance of web applications.

2003 - 2007

#### United States Air Force

Lead applications services technician and web developer for Offutt AFB. Responsibilities included maintaining servers, managing access for over 40 web developers, and developing custom web based solutions.

### Things I've Made

#### Zombiegames.net

Currently holds the #1 rank for the keywords Zombie Games. Was featured in April 2008 issue of PC Gamer Magazine.

#### Somethinghitme.com

Customized Wordpress install, self designed theme. Personal blog kept up to date with my current development endeavours.

#### Jasonrb.com

Personal portfolio site designed and developed in order to show off some of my creations.

#### jQuery Breadcrumb Plugin

jQuery plugin for dynamically adding breadcrumbs to a web page without requiring any other technologies.

#### JS1k Submissions

I love programming competitions. The following links are entries that were all created in under 1kb. #1, #2, #3

#### JSlander - HTML5 Lunar Lander Clone

Game written entirely in JavaScript using the canvas element. Featured on many websites dealing with HTML5.

#### jQuery Snowfall Plugin

Makes it snow on any page, supports as far back as IE6. Used on many popular sites such as threadless.com

#### JEST HTML5 Game Framework

HTML5 Game framework created to assist developers in rapidly creating HTML5 games using the canvas element.

### Education & Accolades

#### Bellevue University

B.S., Science in Computer Information Systems and Web Technologies, core requirements completed. (Actively Pursuing)

#### CIWA

Certified Internet Web Associate - 2008

#### Air Force Achievement Medal

Provided 100% network up-time for 6 consecutive months, and developed the base's first web based collaboration tool.

#### Distinguished Performance Award

Awarded November 2011 by General Dynamics for successfully completing development and implementation on client training information management system.

### My Skills
